

Tasty solutions.

THE TASTE OF ALL
IN EVERY PART.
THIS IS THE FRUIT
OF OUR COMMITMENT.

FROM ENGINEERING, THROUGH CONSTRUCTION, TO VALIDATION.

THE TASTE OF OUR
PROJECTS DOES NOT
END AT FIRST BITE.

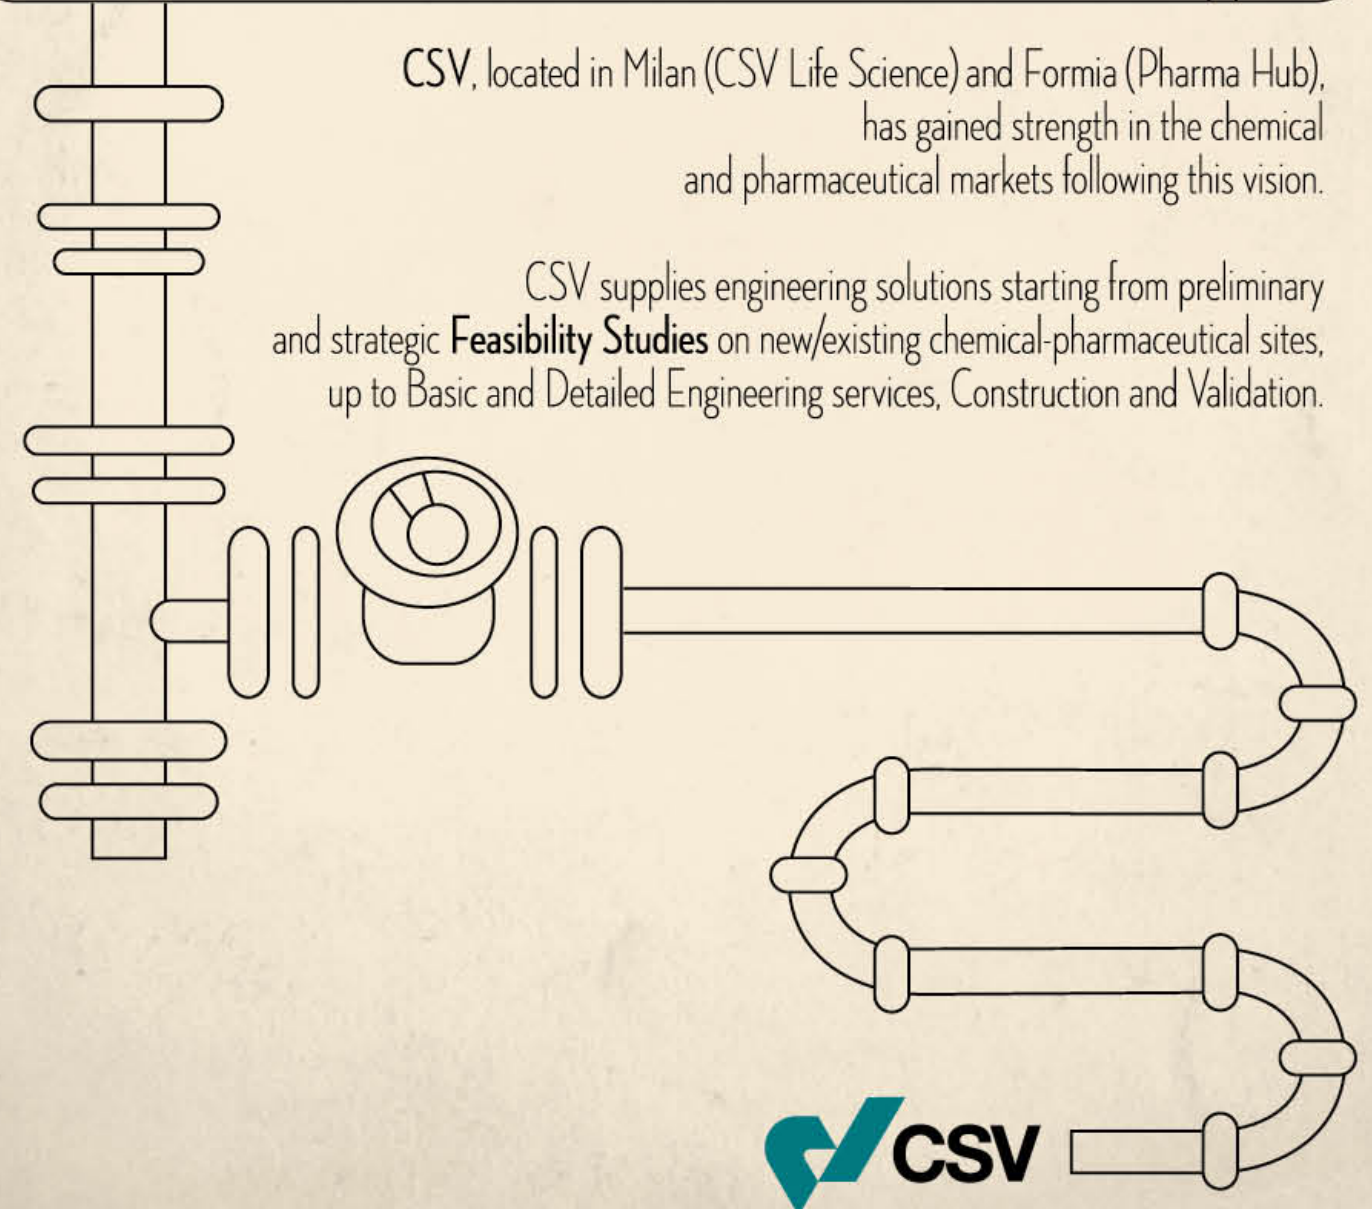

Integrated solutions are the ones most tasteful: as they allow you to enjoy a **global project vision**. Therefore a highly flexible job is guaranteed for all companies looking for a long term relationship and a problem solving approach.

CSV, located in Milan (CSV Life Science) and Formia (Pharma Hub), has gained strength in the chemical and pharmaceutical markets following this vision.

CSV supplies engineering solutions starting from preliminary and strategic **Feasibility Studies** on new/existing chemical-pharmaceutical sites, up to Basic and Detailed Engineering services, Construction and Validation.

LS TK

BUILD DIFFERENT.

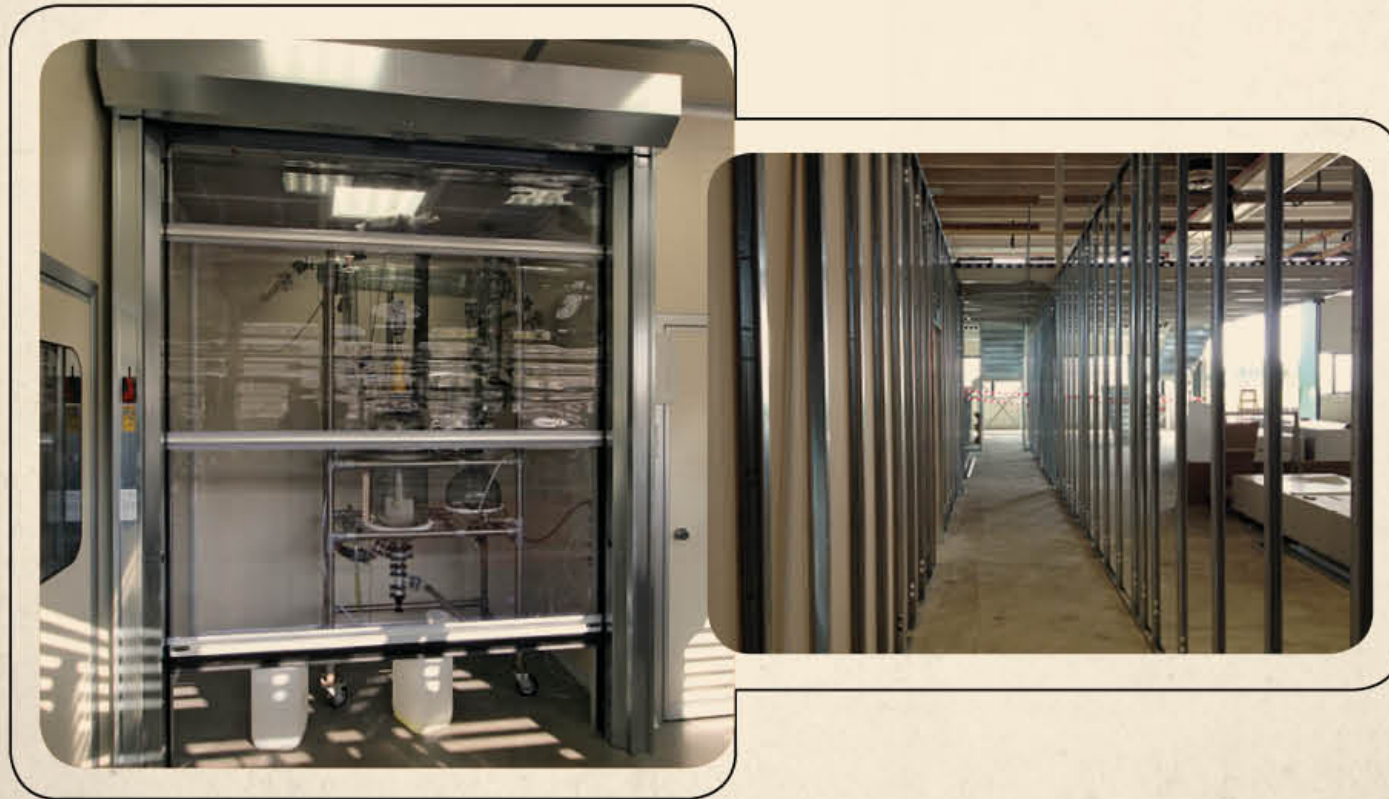

IN TERMS OF PROTECTION AND SAFETY WE ARE UNCONTAINABLE.

A fruit grows up well when it is shielded by a shell or a peel.

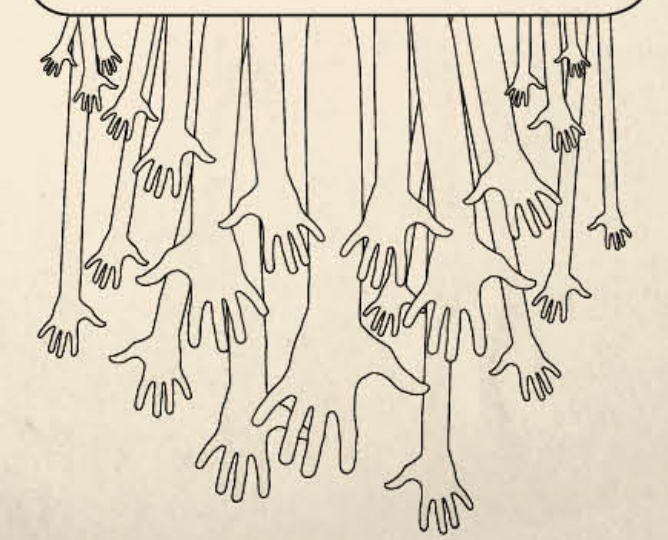

Over the years, CSV Life Science developed and realized several custom-made solutions dedicated to gas and powder containment for chemical and pharmaceutical areas.

CSV Construction can support pharmaceutical companies in all steps of development and construction of cleanrooms and plants.

CSV Construction is a trusted partner for "Lump Sum Turn Key" supply for Mechanical, HVAC, pharmaceutical finishing and Project Management.

CSV Life Science is able to provide tailor made solutions based on flexible and rigid technology. These applications have been studied for high potency drug containment (Safety), and/or creating classified (GMP) or humidity controlled areas surrounding exposed operations, especially in contamination backgrounds.

IN THE MEDIATION
PROCESS OUR PRINCIPLE
IS ALWAYS TO BE ACTIVE.

CSV Active, established in 2013, is one of the new entries of the group: it is the fruit that was born to complete the tree of CSV Life Science services.

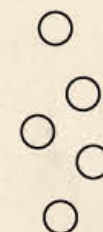

CSV Active is a qualified worldwide partner with high competence in Fine Chemical Intermediates and API (**Active Pharmaceutical Ingredients**) trading.

CSV Active is a young company but it's already ripe.

CSV Active has skilled staff with many years' experience in **Intermediates** and **API** trading, and is already linked to an high efficient suppliers network fully aware of technical and regulatory requirements.

CSV Active is also a reliable reference for the selection of the right contract manufacturer for **Finished Dosage Forms** and the scouting of **Registration Dossiers** worldwide, offering Know-how, experience and a broad network.

The goal is to introduce to the pharmaceutical market a dynamic company as a fully transparent intermediary between suppliers and customers, believing that confidentiality plays a key role in a fruitful business.

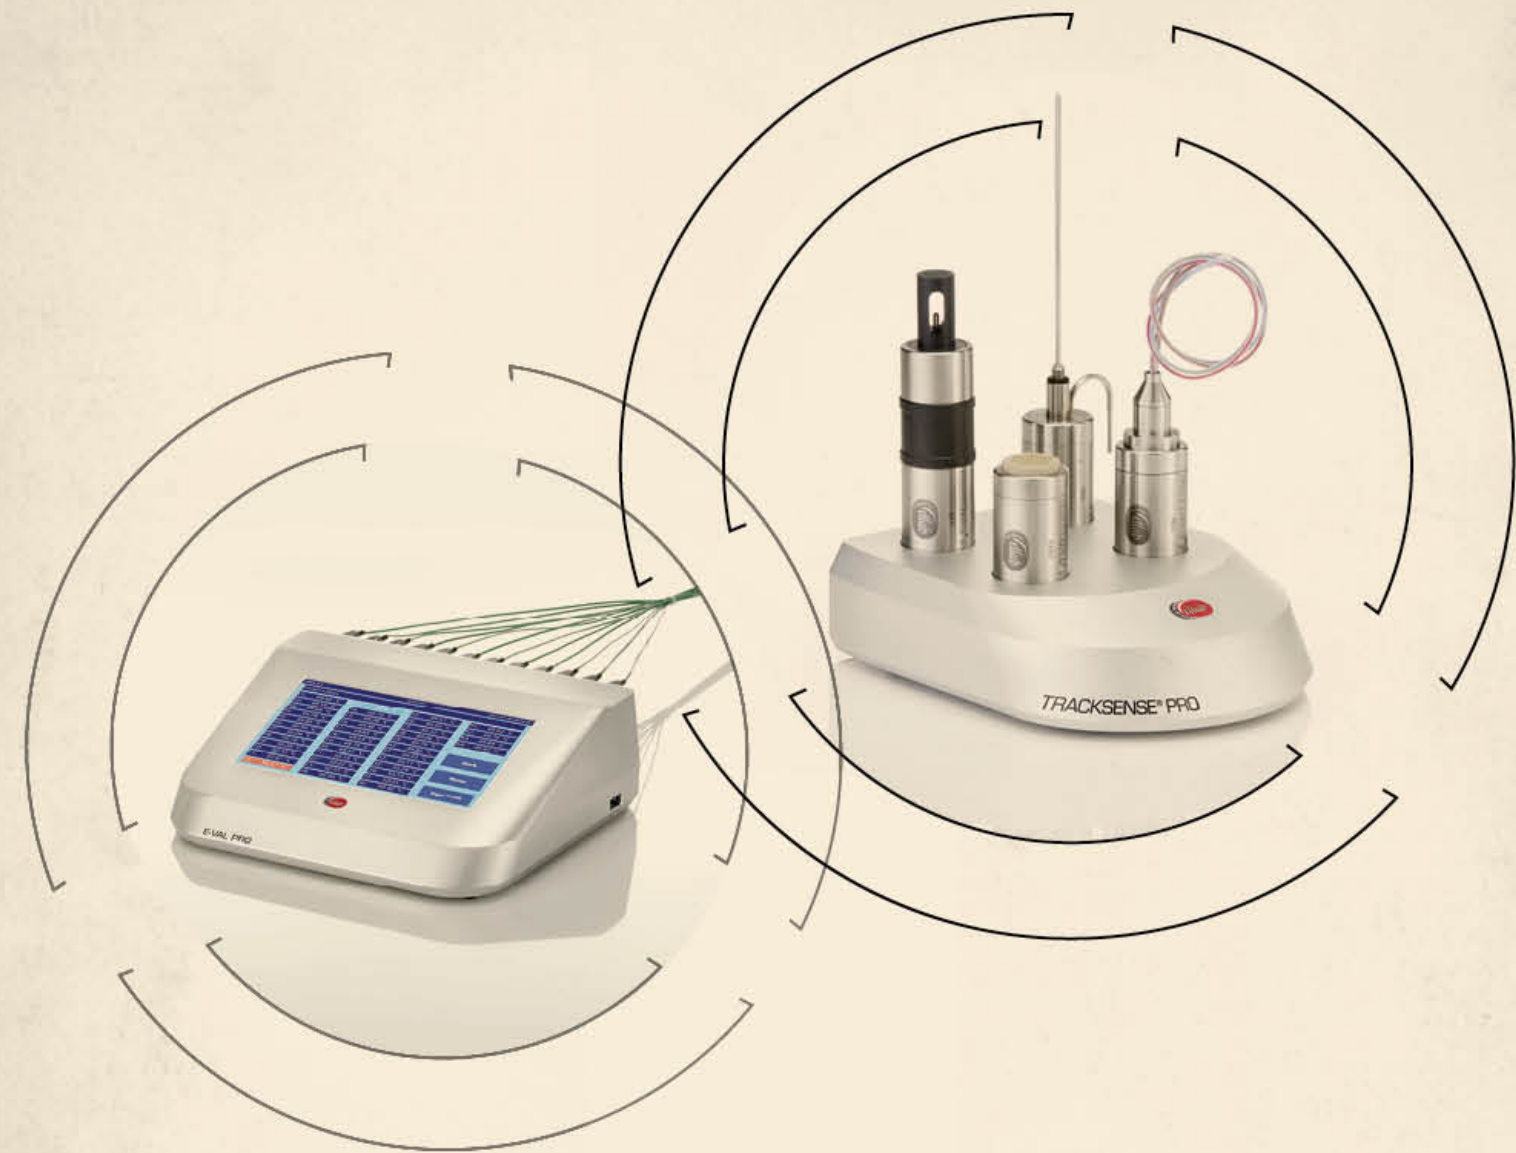

CALIBRATING ON YOUR PROCESS COMES NATURALLY

Fasinternational has existed for more than **30 years**.

Fasinternational started to link to CSV's services tree in 2012 with a strengthened leading position in temperature, relative humidity, pressure, electrical magnitude and **HVAC** parameters monitoring.

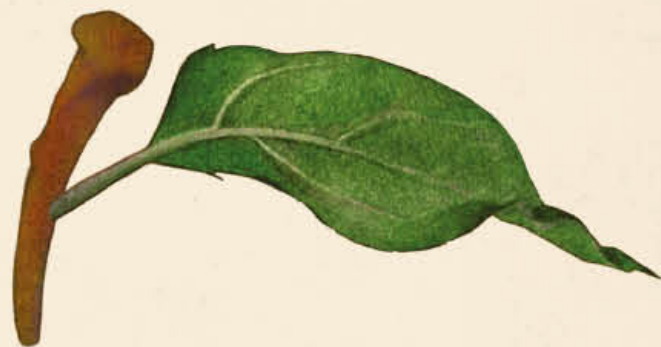

Fasinternational is always in line with the most state-of-the-art technologies and the most recent applicable regulations, and is the reference point for companies which are looking for custom-made solutions for calibration, validation and measuring.

Furthermore Fasinternational is one of Europe's oldest **ACCREDIA Metrologic Laboratories**.

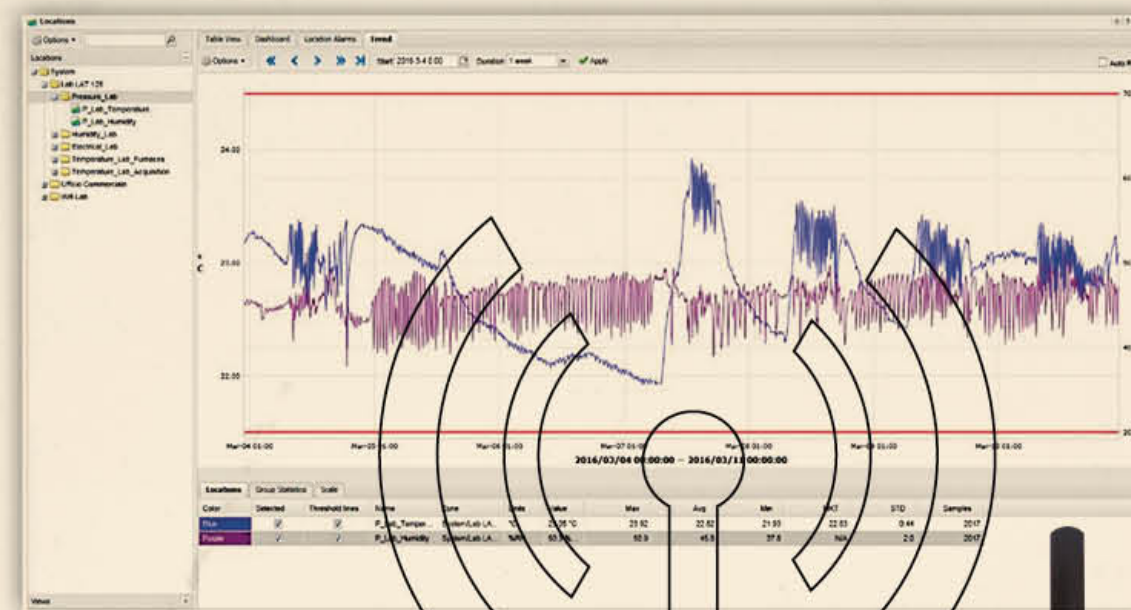

Fasinternational firmly believes that a custom-made service cannot be fruitful without a strong focus on assistance and training. Therefore, in order to have deeper roots in customer's relationship, Fasinternational offers dedicated training courses which allow the customers to be self-operative in using the instrumentation.

These activities are combined with very efficient assistance for repairs and/or preventive maintenance.

IT TAKES COOLNESS. ESPECIALLY WHEN IT COMES TO TEMPERATURE.

FasLab was established as Fasinternational's branch for companies which are looking for environmental and production processes monitoring solutions .

FasLab introduces to the market innovative and Hi-tech answers to all monitoring problems.

Taking advantage of Fasinternational's 30 years' experience, FasLab has in its portfolio very simple and user friendly **Hi-tech systems**. Its focus is to provide wireless solutions in compliance with the **FDA** and **GxP** requirements.
