

I Holland Tool Management System Upgrade Offer

Upgrade your old management system to the 21 CFR Part 11 compliant I Holland Tool Management System (IH-TMS) and receive a special discount including IQ/OQ documentation.

Since its launch, IH-TMS has taken off with installations around the world. The system provides proactive monitoring of tooling, accommodating your current practices and offering ways to enhance them with the guidelines of the globally adopted PharmaCare 7-Step Process. This is all recorded from a simple multi language user interface and provides a fully 21 CFR Part 11 compliant audit trail.
